A Man for All Seasons

Paul Scofield
Robert Shaw
Orson Welles
John Hurt

This film portrays the sixteenth century death of Sir Thomas More, a prominent member of the court of English king Henry VIII. Given the historical fact, this movie vividly tells the story of More's stand against the king's betrayal of God -- a stand which ultimately would cost Thomas his head.

When the then Catholic king Henry VIII decided to divorce his wife, Catherine of Aragon, so that he could instead marry Anne Boleyn, his will was opposed by the Roman papacy as being repugnant to the clear teachings of scripture. Rather than obey the law of God, Henry chose to rebel by having Parliament pass a law to establish the Church of England and declare Henry the head of it. To legitimize his claim to this new title, Henry needed the support of his members, the most notable of which was Thomas More. The play's heart is the standoff between King Henry VIII (Robert Shaw, in young lion form) and Thomas More.

When presented with the king's demand to swear an oath declaring the king's rightful claim to the headship of the new Church of England, More demurred but refused to state his reasons for not doing so. He sought protection in his silence, knowing that his refusal to sign would likely be viewed as treason, but that treason must be proven beyond a reasonable doubt -- and he intended to give them no evidence --

In a brilliant performance, Paul Scofield (his Oscar-winning performance) depicts More's steadfast assertion of integrity and conscience toward the law of his God. His chief accusers were the Lords Cromwell, Norfolk, and Riches, who repeatedly confounded More's evasive and clever snares and manipulations, designed to gain More's cooperation but later to gain the means to incriminate himself. Cromwell and the others ultimately are forced to resort to perjury and corruption, and a kangaroo court to "convict" Thomas of the crime of high treason, and to eliminate him as the last obstacle to the king's

ambitions. **120 minutes, Widescreen,**

This is a very rare film which illustrates the devotion of a husband to his wife through and health, in good times and bad," as he trusts the Lord for his strength. The 50ish wife suffers from Alzheimer's Disease and this excellent movie shows the awful devastation and immediate change within a family that this disease brings.

This movie is an excellent portrayal of the faith and deep love a husband had for his wife and for his belief in Christ. . It shows that we cannot live life alone, and that God truly will never forsake us. We have to run to Him. We must place our burdens on Jesus' strong shoulders because we were never meant to carry them alone. It offers us a peace that passes all understanding when we give our worries and hardships

Anne Frank - The Whole Story Ben Kingsley
Disney

The Whole Story delivers exactly what it promises: the incredibly moving complete story of Anne Frank, going beyond what she wrote in her widely read diary. Anne, along with her family and friends, hid in an annex behind her father's office in Amsterdam during the Nazi occupation of Holland. She kept a diary, which became a worldwide phenomenon when her father published it in the 1950s. This brave film is difficult in parts to watch--the concentration camp scenes are brutal--but it is a remarkable adaptation of Anne's life. Bang Bang You're Dead is not normally a with the genre expected by Christians but we at BibleProbe.com highly recommend. Forget the singular young jerk wearing the pentagram on his shirt, and follow this to conclusion. For those of you who do, the message of self discovery, hope and forgiveness waiting at the end. You will be enriched perseverance. It is a Thriller, that will keep mesmerized.

As parents you will be shocked into awareness about how the Columbine massacre could ever happened. This film makes it abundantly clear what psychological pressures a High School endures. Also, you will think twice about any kid off until you first understand the pressure they are under. Kids can be the ruthless people. Supernaturally cruel!

This film exposes the the typical American school, and its pecking order which is totally destructive of our kids' pride and welfare unchecked, apparent slights and constant against a kids pride will inevitably spark senseless violence and chaos...

The young Ben Foster was simply superb multi-layered Trevor Adams... Randy Johnson wonderful job as the rebel "Trog" Sean.

Barabbas

Anthony Quinn
Jack Palance
Ernest Borgnine

Starring Anthony Quinn in the title role, *the movie Barabbas* was released in 1961 with dazzling cinematography.

Barabbas was the robber chief who was spared crucifixion and freed instead of Our Lord. The movie imagines what happened to Barabbas after freed by Pontius Pilate in Jerusalem. The journey the story takes is quite moving, unique and thought-provoking. Quinn is excellent. He is ever roaming in thought of survival. Barabbas a man torn between his heathen upbringing, he knows is right through what he has witnessed in Jerusalem and Rome, no matter how much what he has seen. This is a big movie shot in a to earth realistic way. A fine study in seeking truth arriving on its doorstep only to be taken away. Many scenes, such as Christ's crucifixion shot and staged like tableaux in a style reminiscent of the great masters of art. The film follows Barabbas from slaving in a sulfur mine in Sicily to becoming a gladiator in Rome. Jack Palance too is excellent in his role as an evil gladiator-for-life. The story of Christian martyrs begins with the stoning of a Christian woman named Rachel in Jerusalem with the martyrdom of a good Christian man in the Roman Coliseum. The Apostle Peter's guidance, the catacombs under Rome and the burning being blamed on the Christians are

Narrated by Steve Saint, the son of one of the missionaries and each of the wives of the men who were martyred while doing the Lord's work.

A beautifully crafted documentary about Baptist missionaries who were martyred by a savage tribe of Indians in the mid 1950s in a heroic effort of reconciliation that has followed. Set in the Amazon basin of Ecuador, Beyond the Gates of Splendor tells the story of the violent and isolated Waodani tribe, and five North American families who contacted them. All five of the American men were killed (Jim Elliot, Nate Roger Youderian, Pete Fleming, and Ed McCullough). Elisabeth Elliot, the wife of one of the men, Rachel Saint, the sister of another, went with the Waodani. Later, Steve Saint, the son of one of the slain men moved his family to live with the same Waodani family that killed his father.

Most of the movie centers around politics between Constantine and those in Rome who to usurp his power and prestige. There is a lot of Roman battle scenes (Civil war). A small part of the movie is also taken up by barbarians.

However, it is a good example of just what Christian Martyrs by the tens of thousands endure (death) before Constantine came to power. Some here say that it is not factually evidence from antiquity is strong that Constantine did have a conversion due to divine intervention. He was alone among emperors to fight for freedom. Constantine did not convert immediately after seeing the cross in the sky. But the movie is well set. His mother (Helena/to Catholics: Saint Helena) portrayed very well in this movie.

In this movie, I was glad to see that we have Christians of the time, a sincere, unwavering faith for Christ. How else could they go so willingly to their deaths.

At such a very small price (\$3.95 at Amazon 05) for this fully restored and digitally enhanced film, you just can't go wrong.

the background of these events, Russia is on the brink of revolution and Jews are feeling unwelcome in their villages. Tevye--who has his desire for sameness in the opening number "Tradition"--is trying to keep everyone, and everything, together. The movie is strongly allegorical--Tevye represents the common man; it does it dexterously, and the resulting film is a stunning work of art. The music is excellent (Oscars for the scoring and the sound), with familiar songs such as "Sunrise, Sunset" and "Were a Rich Man," which you'll be humming after the movie is over. Gandhi

Ben Kingsley

Sir Richard Attenborough's 1982 multiple-winner (including Best Picture, Best Director for Ben Kingsley) is an engrossing, riveting look at the life of Mohandas K. Gandhi, who introduced the doctrine of nonviolent resistance to the colonized people of India and who ultimately led the nation to its independence. Kingsley is magnificent as Gandhi as he changes over the course of the film from an insignificant lawyer to an international leader and symbol. Strong on history (the historical division between India and Pakistan, still a problem today, can be seen in its formative years here) as well as character and ideas, this is a masterpiece. Roger's High school is in the grip of a dark force. Three Bullies lay near death and it's revealed that they're the casualties of Abel Frye, a ghost who haunted the school since he hanged himself years before. Scratched into the locker of each victim is the image of a hangman, a symbol which has become a calling card for terror. Suspicious students begin to believe that the outcast "weirdo" is calling upon the spirit of Abel Frye to retaliate against their daily torment. Is it truly the supernatural? or is there something even more terrifying? The clues are scarce and time is running out. The only hope is the V.I.C.E. Project, a highly trained investigative team operating undercover to expose the truth. Lives hang in the balance as they scramble to unravel the mystery and protect the student body from their own hatred and fear.

Hangman's Curse is a strong, solid and entertaining film that has a strong Christian (message) in it. It's a thriller that breaks from the typical "horror" movies which typically fill up the Christian genre. Hangman's Curse integrates the Christian message without coming across as cheap, forced, or heavy-handed preaching. Christian references, like prayer, are subtle and blended in, only appearing in appropriate spots so as to not crowd out the story. This allows the film to not stall or trip up. Terror bombing after terror bombing, day after day a sidewalk café becomes as dangerous as a military outpost. A simple trip to the supermarket becomes a horror of flying nails, glass and death. How do you deal with this pervasive terror? This is a documentary which gives the viewer a peek into the real life of hearts. Current news reports show Arabs demonstrating the violence against Israel. But this finding any indication of Israelis hate anyone is not an easy task. We see several Israelis lying in the streets after being attacked by Arabs. However, the world never tracks down the Israeli "wounded bystander." Were they to do this they would find these Jews with nails in their brains, missing bodies, and psychological handicaps brought on by never-ending unprovoked Arab hatred. **John Wycliffe -
The Morning Star**

"John Wycliffe" is a dramatic biography of the 14th century scholar and cleric who translated the Bible into English for the first time. Wycliffe placed himself in the middle of religious, political and social conflicts. An Oxford scholar, one of Europe's most renowned philosophers, he was a defender of national rights against the power of the pope and a champion of the poor against the injustices of the church. John Wycliffe taught that God's forgiveness cannot be bought with indulgences. He preached that true authority is the Word of God, and that the Bible can only be understood by all if the people could read their native tongue. "John Wycliffe" captures the dramatic and heroic struggles of this significant man, the "Morning Star" of the Reformation.

John Wycliffe, the brilliant 14th century Oxford scholar, translated the Bible from Latin into English in order to enlighten the masses oppressed through ignorance. His work was so despised by the established church, that Pope Martin V ordered Wycliffe's bones to be dug up and burned. Martin Luther was one of the few who challenged papal authority in the 16th century and lived to tell the tale.

In exposing the folly of indulgences (paying money to the church in order to obtain favor with God), Wycliffe revealed what had always been written in Scripture: that justification was through faith. Wycliffe was not spared like his friend Luther. Tyndale spent the last 500 days of his life in a cold castle. He was then tied to a stake, strangled and burned. Left Behind

Left Behind is based on the first in a series of bestsellers by Tim LaHaye and Jerry Jenkins. It's a compelling thriller that is built around the biblical prophecy of the ascendance of the Antichrist. Sudden disappearances throw the world into chaos, and a sinisterly compelling Nicolae Carpathia (Gordon Currie), head of the U.N., selflessly steps in to broker peace among the world's nations. But is he as good intentioned as he seems?

Turns out the appropriately named Mr. Carpathia is behind a plot to rule the world and control the oil supply, and intrepid reporter Buck William Cameron, (better than you'd expect) is onto the plot with a little help from some biblical prophecies. (Full Screen, PG-13 (Violence), 95 minutes.)

Try to imagine what life might be like in the times of the Great Tribulation. But those who are "of Christ" will be protected and kept from God's wrath even in the face of those who will persecute Christians and Jews for their beliefs. Even in the face of a charismatic leader who will offer peace at the end of the tribulation, try to "deceive, if possible, the very elect." (Full Screen, 94 minutes.)

Sidney Poitier
Lilia Skala

Sidney Poitier won an Oscar for this endeavor about a Baptist handyman who thinks he's going to stay through a little town in New Mexico, and ends up staying awhile to build a chapel for a cluster of German-speaking nuns. The renowned actor is entertaining in his combative exchanges with Lilia Skala, playing a Mother Superior who survives the ravages of Nazism and Communism, and makes no bones about turning the goodhearted, itinerant worker into doing more for her. The film has an ambling, easygoing style with several memorable moments, none more so than Poitier leading his holy hostesses through the gospel song "Amen."

Osama

Marina Golbahari This is not about Osama bin Ladin. But it is about the sort of society bin Ladin and Islam want to impose on the entire world. It takes a look at what it is like to be alive in Afghanistan when the Taliban were in power. The problem is, the Taliban is an aberration. The Taliban and their atrocious version of Islam (true Islam) desires to impose its will on the world. It happens everywhere these murderous Imams and Mullahs take over.

Arif Herati

Zubaida Sahar

The Islamic fundamentalists known as the Taliban have unleashed a regime of terror. Its first victims are its own people, particularly women. It closed girls' schools, dismissed women from government jobs, and enforced sharia laws under which women deemed to be "immoral" are stoned to death and widows guilty of being adulterous are buried alive.

A 12-year-old Afghan girl and her mother are left without jobs when the Taliban closes the hospital where her mother works. The Taliban have also forbidden women to leave their houses without a male "legal guardian." With her husband and brother dead, killed by the Taliban, there is no one left to support the family. Unable to leave the house, the mother is left with nowhere to turn. Feeling that she has no other choice, she disguises her daughter as a boy. Now known as 'Osama,' the girl embarks on a terrifying and confusing journey as she tries to keep the Taliban from finding out her true identity.

Inspired by a true story, Osama is the first Afghan film shot since the fall of the Taliban.

The liars say America lost the War in Vietnam when actually America just lost the will to continue the fighting there. Over 50,000 American soldiers died there. Forgotten, however, are the over 2 million Vietnamese refugees who have risked their lives to come here, and most have proven to be successful citizens. Damien Nguyen was extraordinary in this film.

The film opens with the statement: 'But the meaning: "less than dust." The phrase is used to describe the children of a Vietnamese man and an American father. One of the consequences of America's involvement in the Vietnam War was the children of GI's by their Vietnamese war-time lovers. For years those women who were with Americans were social outcasts, treated as collaborators while their children, even those with grandparents, endured taunts and discrimination. This is the story of one such love child, Binh (Damien Nguyen), being forced from his village in Vietnam to Saigon to find his mother, then trying to come to America with his much younger half brother, Tam (Dang Quoc Thinh Tran), in 1990. Binh endures the rigors of the voyage: the journey through the Malaysian detention camps, the illness on the ship, and the underground economy with its slavery in New York City. It's become apparent to me that the Christian Movie Genre has gone unnoticed by a great number of Christians. This true story of this 8 year old boy should be seen by anyone who is looking for faith and hope. This is a story of how the Catholic Church maligned and mistreated vis-à-vis its collusion with Nazi Germany. When viewed of the political "numbers game", actual (including Pius the Pope) may have been the greater good vs the greater bad in decisions/non-decisions they made. Why (USA) over 2000 miles away to really understand the Vatican and Europe surrounded and infiltrated by Nazi soldiers every day?

Specifically, this is a movie about the re-imprisonment of scores of Catholic priests in the infamous Dachau Concentration Camp. It's about political intrigue. But, more so though about faith and courage in the face of death.

A very powerful movie. I am amazed that it was actually made by Germans, indicating a deep sorrow for their country's past sins and willingness now to confront these head-on.

One of the very best movies of the Nazi era I have ever seen. It's a fast moving thriller film. It is in German, with very good English subtitles. Bravo Zulu to all actors. Excellent hidden gem of a film! Thank you Germany! Wish we in America made such films with depth.

The Prince of Egypt Disney

"SPECTACULAR!" Karen Butler, UPI
"DAZZLING!" Janet Maslin, THE NEW YORK TIMES
An epic adventure and milestone in cinematic achievement. The linear story of Moses is told, and the look of the film is stunning; no animated film has looked so ready to be in the Louvre since *Fantasia*. Here is an epic with energetic bustle and pristine build. A slave and set adrift in the river, Moses (Val Kilmer) is raised as the son of Pharaoh (Patrick Stewart) and is a fitting rival for his stepbrother Ramses (Ralph Fiennes). He learns of his roots--in a knockout sequence which hieroglyphics come alive--he flees to the desert, where he finds his roots and he calls to free the slaves from Egypt. This extraordinary tale of two brothers, one of royal blood, one an orphan with a secret, grows up the best of friends, they share a bond of free-spirited youth and good-natured rivalry. But the truth will ultimately set the odds, as one becomes the ruler of the most powerful empire on earth, the other the leader of his people. Their final confrontation forever change their lives - and the work is spectacular entertainment and a celebration of human spirit, *The Prince Of Egypt* stands as a classic for the ages, for audiences of every generation to enjoy and cherish.

A Jewish man wrote about this film: "I almost felt tears at the BEGINNING of a movie when Y'sheved (Moses' Mother) started to sing a lullaby IN HEBREW, I almost started crying. I always prefer animated films to the "re-

felt "finally, a perfect film..." Being Jewish seeing this movie during the month of I (Passover) was literally a religious experience touched. Seeing the people sing Mikdash as the left Egypt pulled tears from my eyes so happy to see the way the film was edited. Don't get me wrong, this is a film for all. But it seems to almost be aimed at the Jewish Community.

The Scarlet and the Black

Gregory Peck

Christopher Plummer

What Would Jesus Do in Nazi occupied Europe? Gregory Peck as Father/Monsignor O'Flaherty answers this question the best he can, in the face of opposition from the Pope himself, by helping the spirit of escaped allied POWs and Jews out of Europe under the noses of the Gestapo. Christopher Plummer plays the SS colonel who "owns" the town (an interesting contrast with his role as Captain Trapp in The Sound of Music). Peck stays true to his faith, continuously exploring ways of outgrowing Nazi oppression.

Although not overtly religious--well, it's a story in the Vatican without being religious. While the movie doesn't explore spiritual depth (nor does it seek to proselytize), it does paint several ethical dilemmas.

The Shoes of the Fisherman

Anthony Quinn

Laurence Olivier

Oskar Werner

David Janssen

Vittorio De Sica

If you find during the 160-minute run time of The Shoes of the Fisherman that you don't know the plot, wait 10 minutes. It will surely change your mind. There will be another story thread to enjoy. The screenplay is literally all over the map, from Siberia, where Archbishop Kiril Lakota, to Rome, where a genially scene-chewer Laurence Olivier plays a Soviet ruler with history. In the world of the late '60s to the brink of World War II, where Lakota travels after the war (and where dissolute reporter David Janssen plays his best to groove on the Swinging Sixties). Despite its flaws, the movie's central driving force is riveting: the current Pope dies suddenly. A good bit of the film, viewers are treated to a peek into the Vatican's inner workings on the election of a new Pope. The events unfold at a leisurely pace that allows you to drink in the spectacle and the ancient traditions. The Alex North nominated score is lovely, and Quinn's performance is the somber-with-a-humorous glue that holds the film together. Anyone interested in the traditions and rituals of the Vatican will find plenty to savor. --A.T.
